Subject: [External] A40 Road scheme/ PMA Blean Pentroydin

Following on from passed conversation with Martin Gallimore and other members of your team at the open evening held in the village hall.

I would like to request clarification, raise my concerns and object to the PMA at _____ and adjoining Farm land.

I would like your views on the following, as I am told no work is planned to the lane yet extra agricultural traffic will be created.

1 Road entrance.

I have planning permission in places that would require road entrance improvements to be carried out and modified as one of the conditions before the development can be completed and occupied.

The same rules will have to apply to your development too.

2 Passing place on the lane.

Again the local highway/ planning department have a view on this in the planning application.

Which again will have to apply to your development too.

3 Lane surface and additional lane to fields What specifications will the additional lane be made of? Should the whole land need to be resurfaced to stop excessive mud to be carted on to the main road?

4 Clarification on the following

Lane Ownership

Lane maintenance and who would be responsible for cost

I await your response and hope to be able to work forward and address the above points in reasonable and amicable way, as swiftly as possible, as I have been advised to put on hold my barn conversation plans until this PMA is resolved.

Thanks
Tom Carrington
