OBJECTION regarding

A40: Llanddewi Velfrey to Penblewin

The balustrades proposed for the Llanfallteg bridge are too low (1.5m) to keep horse riders safe (they should be min 1.8m ideally 2m). I am a horse rider and would like to ensure that all is safe with myself, my horse and other horse riders.

I have been informed that the specifications are not good enough for equestrian users as are too low so can this be adjusted.

Kind regards
Louisa Barton
