RE: WC1-A40 MANSBENI VILFREY TO PENBLEWIN IMPROVEMENTS

I write in support of the above road improvement scheme. My reasons for doing so are many fold and include the following:

The A40 at present is an extremely busy road carrying traffic through England and Wales from Europe and onto Ireland with return.

This traffic seems to increase in volume yearly and that with the increase in tourism traffic is causing the road to be stretched to its limit. This at a time when our local NHS is moving major services from Haverfordwest to Carmarthen resulting in many ambulance transfers (often blue light) needing a clear and accessible road.

In the village itself it has become a danger trying to cross this road, thereby causing a split in the community.

Thereby I hope and trust that this scheme will continue to plan.

Kind regards

Christine Daniels (Mrs)
