Dear Mr Dixon

**A40 Llanddewi Velfrey to Penblewin Improvements**

Thank you for your letter dated 8 November 2019 and thank you for confirming that Llanddewi Velfrey Sewage Treatment Works ("STW") and the access to the STW will not be affected by these proposals. Dŵr Cymru Cyfyngedig has considered the points raised by Welsh Government and we are willing to consider removing its objection on the basis that you undertake to adhere to the following points:

1. You will divert all the apparatus Dŵr Cymru has identified as requiring to be diverted through the NRSWA process, together with any other apparatus subsequently identified as requiring diversion by Dŵr Cymru;
2. You will ensure that all mains diversions are carried out using appropriate methods, including the flow stop method where necessary;
3. Where NRSWA does not apply, you will bear all costs of diverting the apparatus under S185 of the Water Industry Act 1991;
4. You will submit the relevant applications and enter into the requisite agreements to divert the apparatus;
5. You will ensure that any works permitted to be undertaken by Welsh Government's agents or contractors, are to our standards and specifications and the regulatory standards and specifications;
6. You will ensure that our apparatus is protected at all times during the works;

7. You will ensure that we maintain unfettered access to our apparatus and land (including access for a six wheeled tanker HGV to Llanddewi Velfrey STW) at all times for all purposes, both during and after the works;

If you are willing to give such an undertaking, please confirm so in writing by email or by post and please enclose a signed copy of this letter. Please address correspondence for my attention to

If I can be of any further assistance, please do not hesitate to contact me at the above address or on telephone number

Yours sincerely
