As requested I wish to register my view and state that I am against the by pass planned for Llanddewi Velfrey, a safer, wider pavement needs to be constructed, but otherwise perhaps the money could be put to better use. Speeding up traffic for the convenience of the people passing through an area, at the expense of those who live there seems foolish and ultimately will cost more in environmental terms, it is an improved pavement that will serve the village best, not a by pass.
