Subject: Llanddewi velfrey bypass

Good morning,

We live at [redacted] . Originally we were opposed to the bypass as we moved to the area and it was not mentioned as part of the mortgage searches, we feared the bypass would be a dual carriageway outside our home.

However, the team have worked with us over the last 10 years and the current plans would be of benefit. Personally to us the scheme would connect us to the village, at present we are isolated on the main A40, the new scheme would allow my children (5/8/11 years) to walk or cycle to the village under the underpass along the lane from our house, this will be a safe route to get the school bus daily rather than currently it stops on the main road.

If the plans continue with the lane for our house rather than access to the A40 it will make it a lot safer pulling in and out. We have seen many accidents in the immediate vicinity. We now support the proposed plans.
