Subject: Llanddewi Velfrey bypass

Sent from my iPad

I am forwarding an email in full support of the bypass going ahead. We live in [redacted] which is the [redacted]. We have lived here for 33 years and notice the vast amount of additional traffic and heavy goods vehicles coming through. We literally take our life in our hands when we pull out from our drive onto the racing track aka the A40. Another problem we have is pulling into our drive, especially when we are coming from narberth direction because the traffic is coming so fast, completely ignoring the speed limit and having to slam on breaks to avoid hitting us. My husband was in the car, indicators on waiting to pull into our drive and a car smashed into the back of him then another car into the back of the one that hit him causing a 3 car crash. Our car was a right off and the accident was caused by the first driver being preoccupied. We have witnessed so many accidents on this lethal road and have waited 33 long years for this never ending promise of a bypass. We just want an end to the abuse we get from other drivers when we pull out onto the road & the fear of an accident every time we do because of the horrendous speed they do despite the speed limits. Travel from London to the ferries and Llanddewi- Velfrey is the first village you come to. This bypass is 33 years overdue and we need this desperately

Yours sincerely
Linda and Danny Bill
