Page Title: A40 Llanddewi Velfrey to Penblewin: stage 3 scheme assessment report | GOV.WALES
Your feedback:

It is absolutely essential that this by-pass is constructed. Lives are at danger whilst the road remains a trunk road. Heavy traffic to and from the ports and trough traffic don't acknowledge the 40mph limits and during holiday periods traffic is multiplied 10fold. Being able to access the A40 from side roads becomes frustrating and risk taking whilst trying to cross, even at designated area is dangerous. This community consists of elderly and children who's lives are constantly at risk. WE have waited decades for this by-pass Dont let a death be the result of kicking it into the long grass yet again.
