Tracey

Please forward this email to the relevant person regarding my overwhelming approval for the proposed bypass.

My wife and I have 3 young children and have resided in the village for the last 12 years. I believe the proposed scheme will bring a massive improvement to the village and to the county of Pembrokeshire as a whole.

To keep it brief the reasons why are listed below:

1. Improved road safety.
2. Improved transport links
3. Improved community links. (The current A40 severs the village)
4. Improved opportunity for outdoor fitness pursuits (cycling, walking etc)
5. Increased opportunity and investment in the area

As stated, I have kept this email very brief and am more than happy to go into further detail as to why I feel the bypass would bring huge benefit to the community. I am also more than happy to speak at the public enquiry meeting if required.

Regards

Mike Brown
