

Haven Waterway Enterprise Zone Advisory Board

March 2020

Dear Sirs

A40 LLANDDEWI VELFREY TO PENBLEWIN IMPROVEMENTS

I refer to the Inquiry in relation to the above scheme.

As Chair of the Haven Waterway Enterprise Zone Board I welcome this proposal. Improving the Zone's connectivity across road, rail, water and digital is important to help mitigate our peripherality, and significant improvements to the reliability, capacity and journey time on the A40 to and from West Wales would be a big enhancement.

Improved connectivity, and good reliability of highway links is welcomed. Such improvements would enormously improve strategic connectivity to Cardiff, Bristol, and beyond, and help make the Haven Waterway Enterprise Zone an even more attractive place for business. Transport is clearly an important aspect of this.

In conclusion, the A40 Llanddewi Velfrey to Penblewin scheme is welcomed and as an Advisory Board we strongly support it.

Yours sincerely
